THE HUNGARIAN GENERATOR

MAAG 40MS

GENSET		
Standby Power	kVA	40
	kW	32
Prime Power	kVA	36
	kW	29
Soundproof canopy [mm]	W x L x H	1000x2450x1680
Open version [mm]	W x L x H	1000x1900x1420
Fuel tank [liter] -base	diesel	101
Net total weight with canopy*	kg	1 000
Net total weight open version*	kg	830
Noise [in canopy design]	dB(A)	71
Control panel		MGD 500L MK2

** Including lubrication oil and coolant fluid, excluding fuel*

[info] Genset characteristics:
Displays:
Phase currents (A), Phase voltages (V), Line voltages, Integrated frequency and speed display.
Cooling water temperature, operating hours counter, oil pressure indicator.

[info] AMF Genset control:
Standard voltage-free indications: genset running, high water temperature, low oil pressure, low battery voltage.

[info] Prime power:
Prime Power is the maximum power accessible at the variable load for an unlimited number of hours per year in a variable load setting. It is not advisable that the variable load exceed 70% average of the prime power rating during any operational period. If the engine is running at 100% prime power, yearly hours should not exceed 500. Overload situations should be avoided however a 10% overload capability is available for a 1 hour period within a 12 hour cycle of operation.

[info] Standby power:
Standby Rating for a standby engine should be sized for a maximum of 70% average load factor and roughly 500 hours per year. Standby power ratings should never be applied except in true emergency outage situations. With standby rated generators there is no overload capability built into the units.

MOTOR		
Manufacturer		MAAG
Model		Y4100D
Number of cylinders		4 in Line
Cycle		4
Aspiration		Natural
Cooling system		Water
Cooling circuit capacity	liter	16,2
Oil capacity	liter	13
Injection		direct
Speed/Frequency	rpm/Hz	1500/50
Fuel consumption	100%	7
	50%	4

ALTERNATOR		
Manufacturer		STAMFORD
Number of Phase		3
Power factor		cos φ 0,8
Frequency [Hz]		50
Output voltage [VAC]		230 / 400 V
Protection		IP 23
Connection type		Star
Standby power	[kVA]	44
Insulation class		Class H
