

MAAG 1656PEMG

GENSET

Standby Power	kVA	1656
	kW	1325
Prime Power	kVA	1505
	kW	1204
Soundproof canopy [mm]	W x L x H	2200x5550x3434
Open version [mm]	W x L x H	2200x4950x2720
Fuel tank [liter] -base	diesel	2500
Net total weight with canopy*	kg	13 800
Net total weight open version*	kg	11 800
Noise [in canopy design]	dB(A)	71
Control panel		MGD 500L MK2

* Including lubrication oil and coolant fluid, excluding fuel

[Info] Genset characteristics:

Displays:

Phase currents (A), Phase voltages (V), Line voltages, Integrated frequency and speed display.

Cooling water temperature, operating hours counter, oil pressure indicator.

[Info] AMF Genset control:

Standard voltage-free indications: genset running, high water temperature, low oil pressure, low battery voltage.

[Info] Prime power:

Prime Power is the maximum power accessible at the variable load for an unlimited number of hours per year in a variable load setting. It is not advisable that the variable load exceed 70% average of the prime power rating during any operational period. If the engine is run-ning at 100% prime power, yearly hours should not exceed 500. Overload situations should be avoided however a 10% overload capability is available for a 1 hour period within a 12 hour cycle of operation.

[Info] Standby power:

Standby Rating for a standby engine should be sized for a maximum of 70% average load factor and roughly 500 hours per year. Stand-by power ratings should never be applied except in true emergency outage situations. With standby rated generators there is no overload capability built into

MOTOR

Manufacturer		PERKINS
Model		4012-46TAG2A
Number of cylinders		12 - 60° V
Cycle		4
Aspiration		Turbocharger - intercooler
Cooling system		Water
Cooling circuit capacity	liter	210
Oil capacity	liter	177
Injection		direct
Speed/Frequency	rpm/Hz	1500/50
Fuel consumption	100%	310
	75%	234
	50%	157

ALTERNATOR

Manufacturer		MAAG
Number of Phase		3
Power factor		cos φ 0,8
Frequency [Hz]		50
Output voltage [VAC]		230 / 400 V
Protection		IP 23
Connection type		Star
Standby power	[kVA]	1725
Insulation class		Class H
